Founded in 1947, the AAFP represents 129,000 physicians and medical students nationwide. It is the only medical society devoted solely to primary care.

The AAFP opposes all discrimination in any form, including but not limited to, that on the basis of actual or perceived race, color, religion, gender, sexual orientation, gender identity, ethnic affiliation, health, age, disability, economic status, body habitus or national origin.

AAFP also agreed “to send a letter to the top national payers stating our opposition to plans that exclude coverage for the treatment of gender dysphoria.”
